Notice Concerning Disposition of Assets

Japan Rental Housing Investments Inc. (hereafter referred to as the “Investment Corporation”) hereby announces that Mi-Casa Asset Management Inc. (hereafter referred to as the “Asset Manager”), asset manager of the Investment Corporation, has decided at a meeting of its Investment Committee and Board of Directors held earlier today to dispose of the following asset under management (hereafter referred to as the “Disposition”).

I. Basic Policy

In order to distribute stable profits to investors over the long term, the Asset Manager will aim for continued growth of the asset size and increase of the portfolio’s quality by (1) acquiring new properties in the Tokyo metropolitan area centering on the 23 wards of Tokyo as well as new regional top-class properties outside the Tokyo metropolitan area (over 1 billion yen per property as a general), and (2) selling primarily small properties (especially properties below 500 million yen) outside the Tokyo metropolitan area to increase management efficiency.

II. Reasons for the Disposition

The Asset Manager made a bidding of disposition for 5 small-scale properties (1.36 billion yen in total on book value basis and total unrealized loss of 180 million yen at the end of the 21st fiscal period) located in the cities of Osaka and Sapporo where the Investment Corporation has recently conducted new property acquisitions, considering the above Basic Policy (2), current real estate transaction market conditions and other factors. Since the last property disposition in the 19th fiscal period, the Investment Corporation has acquired 9 properties for 15 billion yen in total (new property acquisitions)

As a result of the bidding, it is revealed that the planned disposition price exceeded the appraisal value for each property and the unrealized loss is expected to be offset with the Disposition, and as such the Disposition was decided accordingly.

Furthermore, gain on sale of real estate of 53 million yen and loss on sale of real estate of 114 million yen (net loss of 61 million yen) are expected to arise. However, as distribution reserves (balance of 6,826 million yen as of today) will be allocated to the loss on sale of real estate of 114 million yen, there will be not impact on the distributions.
