Notice Concerning Disposition of Asset

Japan Rental Housing Investments Inc. (the “Investment Corporation”) announces that it has decided at a meeting of its Board of Directors held earlier today to dispose of the following asset under management (the “Disposition”). Details are provided as follows.

1. Reason for the Disposition

The Investment Corporation decided the Disposition of a small-sized asset, Gran Casa Motoazabu (former Premium Type, total of 4 leasable units, 335 million yen of book value), to promote greater asset management efficiency.

At the fiscal period ended in March, 2011 (10th fiscal period), the Investment Corporation made a judgmental decision that investment on the Premium Type is unsuitable to aim stable distributions over the longer term, and disposed 3 properties and booked impairment losses on 3 properties out of 7 Premium Type properties, that influenced by economic fluctuation. In addition, the Investment Corporation revised the Asset Management Guidelines based on the revision of the Articles of Incorporation for the Investment Corporation, and removed Premium Type from its investment policy. (Please refer to the press release “Notice Concerning Changes to Asset Management Guidelines” in May 16, 2012.)

The Disposition is expected to result in related losses and expenses (approximately 15 million yen), but there is no impact on distributions due to the appropriation of distribution reserves (outstanding balance of approximately 7 billion yen as of the end of the 13th fiscal period) arising from gains on negative goodwill.
